

To our valued patients,

We hope that you're safe and in your best health amid the COVID-19 pandemic. We understand that the situation is worrisome and you may have a lot of questions in regards to your well-being.

Our team of providers are now **accepting walk-ins at our Lawrenceville practice** to provide assistance with injections and address your medical inquiries. Our **Flowery Branch practice will remain temporarily closed** until further notice.

For those who would prefer to continue treatment or to get medical advice from the comfort of their homes, **we are offering virtual telemedicine visits**. Most of our psychiatrists and therapists are providing medical consultations online to help patients access medical services without risking their exposure to the COVID-19 virus.

If you'd like to **schedule an online consultation with our psychiatrists, please email us at info@salveohealth.org**. Once your appointment has been reserved, you can access your doctor's [waiting room links](#) on our website through DoxyMe.

Due to the impact of COVID-19 on mental health, we have been receiving a high-volume of calls. If you can't reach us at the moment, kindly leave a message stating your name, medical concern and date of birth, and we'll reach out to you as soon as we can.

As mental health advocates and providers, your well-being is our top priority and we strive to provide medical, emotional and spiritual recovery support the best way possible.

We appreciate your continued trust in our practice.

In health,

Dr. Shazhard M. Hashmi, Sudha Devrah and the entire team at
Salveo Integrative Health
